

HEDRICK-WALKER

Since 1970, Hedrick-Walker has served electronic OEMs in Florida, Georgia, Alabama, Tennessee and Puerto Rico with custom electro-mechanical manufacturing services, as well as providing high-volume, turnkey product builds in Asia.

Our valued principals have been with Hedrick-Walker for an average of over 18 years, and many customers have been with us for over 25 years.

Arnprior-RMSI

www.arnprior-rmsi.com

Turn-key solutions from Concept thru Production including Rapid Prototyping (Stereolithography & Selective Laser Sintering), Machining (Milling, Grinding, Turning), Wire & Sinker EDM, Rubber Molding, Injection Molding, Mechanical Repair, & OEM Replacement parts. Unique Engineering & technical capabilities. ISO-9001, AS 9100, ITAR. *Rep'd since 2010.*

Automatic Coax & Cable

www.AutoCoax.com

Automatic Coax & Cable is a woman-owned company that specializes in the production of custom cable assemblies, wiring harnesses, coaxial cables, control panels, control systems, and electromechanical assemblies. ISO 9001:2008 certified / IPC/WHMA-A-620 Manufacturing Guidelines. *Rep'd since 2008.*

BK Plastics

www.BKPlastics.com

Heavy Gauge Plastic thermoforming (vacuum & pressure forming), .028-.500 thick, 54" x 108" maximum sheet size. In-house tool making utilizing urethane, machined aluminum, and cast aluminum molds. Secondary services including CNC machining, Trimming, Painting, EMI/RFI Shielding, Ultra-sonic insert welding, and die cutting. Design Support for prototype thru production. *Rep'd since 2014.*

Circuits West

www.CircuitsWest.com

For over 30 years, Circuits West, Inc. has served a wide variety of industries with their Printed Circuit Board needs. CWI manufactures quality PCB's in both multi-layer (up to 18 layer) and double-sided configurations. All PCB's are manufactured to IPC-A-600F specification Class 2+ in the Colorado Front Range. *Rep'd since 2011.*

Concept Machining

www.conceptmachining.com

Precision machine components for the commercial, military, aerospace OEM marketplace. Cost Effective, Close tolerance milled & turned components prototype thru production. Materials include aluminum, stainless, copper, brass and plastics. Florida based. ITAR *Rep'd since 2010.*

Exact

www.ExactInc.com

Exact provides contract fabrication and manufacturing services including CNC laser and punching, CNC forming, robotic welding, painting (both wet and powder-coating), mechanical and electromechanical assembly services, silkscreening, and in-house alodine and zinc plating. ISO/ITAR. *Rep'd since 1983.*

Label-Aid Systems

www.Label-Aid.com

Leading manufacturer of pressure sensitive labels, decals, and overlays utilizing four-color flexographic, screen printing, hot stamping and transfer processes serving the telecommunications, automotive, commercial electronics and consumer market goods industries. National Award Winner. ISO-9001-2000, QS9000. *Rep'd since 1999.*

Photofabrication Engineering Inc.

www.photofabrication.com

Photochemical machining of precision components, lead frames, lids, RF/EMI shielding & various medical parts. They are produced in a wide variety of alloys including titanium, S.S., Kovar, copper, brass, nickel & silver. Material Thicknesses: .005"-.125". Secondary forming, assembly, plating, part marking & various other services are available as required. ISO 9001:2008, AS9100:2009 REV C, ITAR Registered. *Rep'd since 2013.*

Syracuse Plastics

www.SyracusePlastics.com

Full-service custom injection molder and contract manufacturer with press capability from 35 tons to 1100 tons serving the electronics, automotive, business machine, HVAC, utilities and pool and spa markets. Post mold capabilities including silk screening, pad print, ultrasonic welding, hot stamping, solvent bonding, pneumatic riveting, inserts, and electro-mechanical assembly. *Rep'd since 1970.*

TransPower Corp LTD

www.TransPower-Corp.com

Contract manufacturer of printed circuit boards, PCB assemblies, injection-molded plastics, metal stampings, extrusions, wire and cable assemblies, magnetics, and full-product builds based in Shenzhen, China. Turn-key development and manufacturing for industries including cable television, pool and spa, air purification, metering, RF transmitters, and battery chargers. ISO-9001-2000. *Rep'd since 1999.*
